Application No. 10/036,832

APPLICANT INITIATED INTERVIEW REQUEST FORM

(Continuation Sheet)

Brief Description of Arguments to be Presented: Applicants' attorneys wish to present remarks regarding the impropriety of the rejections of the claims based on Masaki. Specifically, applicants' attorneys will point out that Masaki does not disclose or suggest a linear actuator as recited in independent claims 1 and 18, or an actuator rod directly driven by the apparatus adapted for linear movement along the second axis as recited in independent claim 14.
